What is Cumberland HDRC?

- Our HDRC commenced on 1st January 2024
- We were awarded £4.8m for a five year project by the National Institute of Health Research
- We are one of thirty HDRC's across the UK
- HDRC's are designed to improve the research infrastructure of Local Authorities and partners in order to improve the determinants of health.

**Health and wellbeing is
at the heart of everything we do**

What are determinants of health?

Determinants of Health

- Education
- Housing
- Living conditions
- Employment
- Working conditions
- Connectivity – digital and transportation
- Commerce and economy

The Marmot Principles

- The best start in life.
- Maximise people's capabilities and control over their lives
- Fair employment and good work
- Healthy standard of living
- Healthy and sustainable places and communities
- Ill health prevention
- Racism and discrimination
- Environmental sustainability.

Why do we need a HDRC in Cumberland?

- Two world heritage sites, an area of outstanding natural beauty
- 14 local areas fall within the most deprived and marginalised areas in England
- More than half of Cumberland's residents live in a rural area, more than double the average for England
- Cumberland has a population that is ageing and declining
- Rates of 'deaths from drug misuse' are double the national average
- Suicide is a significant cause of death in Cumberland and above national averages
- Rates of 'hospital admissions as a result of self-harm in people aged 10-24 years' are much higher than England and rates of 'hospital admissions for mental health conditions for under 18 years' are also much higher.

**Health and wellbeing is
at the heart of everything we do**

Our values

Compassionate

Empowering

Innovative

- Pupils in Cumberland consistently perform below their national peers throughout school from the Early Years Foundation stage (3-5 years) to Key Stage 4 (14-16 years).
- 21.0% of children (0-15 years) are living in poverty, this is higher than the England average
- The proportion of Cared for Children is significantly higher than the average across England
- The proportion of children on Child Protection Plans is above both the national and North West averages.

**Health and wellbeing is
at the heart of everything we do**

A new Council, embedding research from the start

Cumberland Council's vision is to put health and wellbeing at the heart of everything we do.

The HDRC's aim is to inform all policy and practice decisions with evidence.

We will achieve this by increasing the research infrastructure and capability within the Council and by conducting research with our communities about health inequalities.

The HDRC Objectives

- Develop a culture for research excellence
- Expand research communications
- Build a sustainable research infrastructure
- Build and strengthen research knowledge and skills across the Council and Communities
- Strengthen collaborative partnerships with Higher Education Institutions
- Build research active communities
- To facilitate a network of practice with local authorities.

**Health and wellbeing is
at the heart of everything we do**

INPUTS

- £4.8 million of NIHR funding over 5 years, creating 13 FTE HDRC posts
- Development of partnerships and networks
- Increase of council staff capacity
- Additional research funding secured

Accessible

Relational

Transparent

Facilitative

Supportive

Approachable

ACTIVITIES

- Alliance and sustainability building
- HDRC governance and knowledge exchange
- Development of a Council Research Governance Framework
- Training and capability development
- Community engagement and empowerment
- Research, evidence, evaluation and learning
- Communication and dissemination
- Regular meetings and reports

OUTPUTS

- Development of research plan identifying research priorities and gaps in available research
- Increase in staff, partnerships and networks.
- Development of a research interest register and evidence and resource hub
- Research, Evidence, Evaluation and Learning (REEL) process
- Increase in learners, including increase in number of programmes, training, placements and secondments available
- Community Engagement Framework
- Co-designed projects
- Successful research funding bids

SHORT TERM OUTCOMES

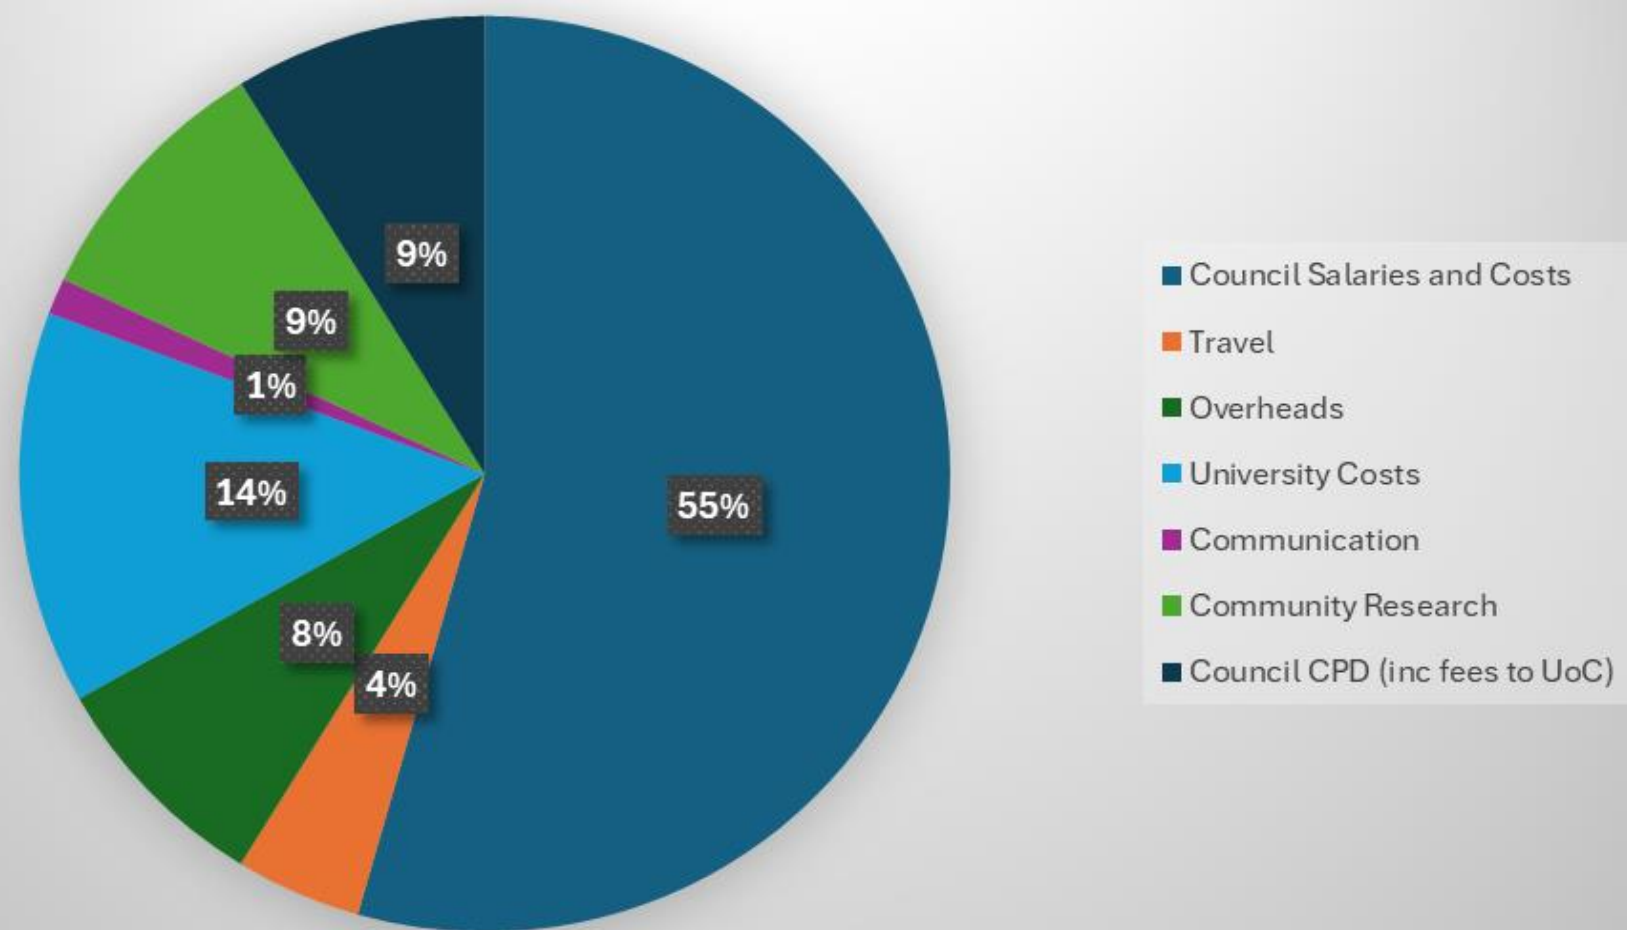

- Increased capacity, confidence and expertise within staff and the community
- Clear, accessible high quality and ethical REEL process
- Staff access to evidence and using this in decision making / planning
- Increased awareness of HDRC
- REEL continues beyond 2029

LONG TERM OUTCOMES

- Evidence, evaluation, research and learning routinely generated and used in the Council
- Determinants of health systematically improved.

How is the HDRC Governed?

- Our Oversight Board comprised of community partners ensures we are working strategically and delivering our plans on time and to budget
- Our Community Advisory Panel ensures we are appropriately involving communities in the work of the HDRC
- Academic Partnership Meetings ensure we maximise the benefits of these partnerships
- Operational team meetings ensure our work plans are delivered and issues are resolved easily.

**Health and wellbeing is
at the heart of everything we do**

Who are the HDRC Partners?

How we
work....

What's happening in year two?

- Embed research representatives and interns in each Council directorate
- Recruit community co-researchers
- Delivery of the research plan
- Implementation of the research governance framework
- Skill development with training sessions open to council staff, elected members and community organisations
- Development and testing of an Evidence Hub
- Funding applications for longer term projects.
